

PT PREMIUM TOKEN

Issue a high-end, next generation token with CoreLedger

Our one stop solution allows you to easily and conveniently issue your token without needing to custom-build your own smart contract. Best of all, we offer an attractive, subscription-based pricing model that comes with a variety of benefits.

KEY BENEFITS

- Convenient, one-stop solution
- No need to create and audit your own smart contract
- Easy administration, bookkeeping and compliance transparency
- Future proof solution, even token standards change
- Subscription-based pricing model covers all maintenance fees for the system, and ensures a short implementation period
- Our solution can be traded as-is on existing wallets and exchanges
